RULES AND CONDITIONS APPLICABLE TO ROLLOVERS										
General Information										
A rollover is a way to move money or property from an MSA or HSA. The Internal Revenue Code (IRC) limits how many rollovers may be taken, how quickly rollovers must be completed, and how the Trustee or Custodian must report the transaction. By properly completing this form, you are certifying to the Trustee or Custodian that you have satisfied the rules and conditions applicable to your rollover and that you are making an irrevocable election to treat the transaction as a rollover.										
1. Timelines – The funds you receive from the distributing MSA or HSA must be deposited into an HSA within 60 days after you receive them. When counting the 60 days, include weekends and holidays. There are generally no exceptions to the 60-day rule and the IRS cannot grant extensions. Receipt generally means the day you actually have the funds in hand. For example, the 60 days would begin on the day following the day you pick up the check from the Trustee or Custodian or you receive the check in the mail.										
2. Twelve-Month Restriction – You are entitled to one distribution per year per HSA which may be rolled over. Twelve (12) months must pass after receipt of one distribution which you roll over before you may take another distribution from the same HSA to roll over. The focus is on distributions out of an HSA.										
You are entitled to roll over the same assets only once in a twelve (12) month period. Twelve (12) months must elapse between the time you receive a distribution of the assets to be rolled over and the time you receive another distribution of those same assets for rollover purposes.
